Cut out pieces as described on pattern

Using either tacky glue or glue gun (with Parents Help)

Place a small amount of glue on the back of the pink heart

Center on the big white heart and press together

Apply a small amount of glue to the lower edge of ear piece

Turn Heart pieces over and glue ear to the heart as shown

Repeat with other ear

Turn heart to front side and glue on eyes as shown

Draw on mouth

If you would like this to be a girl bunny

Take the piece of ribbon and tie into a bow

Add to the front of the heart and glue in place

Next, if using a pin back. Have parent glue with a hot glue gun, flat side of pin back to back of heart.

This is what a pin back looks like

If you don't have a pin back a safety pin will work as well

Get the last piece of white felt and have a parent use a hot glue gun and glue on the very bottom and top edge

Turn heart to the back and place the strip like this

Press into place

Next slid the pin in between the opening

Here is your finished pin
